Summary of Comments and Responses (if applicable):

One comment was received from Washington Department of Ecology regarding concern of a contaminated site near the area. DOE field rep Craig Rankine was contacted and confirmed that the contamination site is within ½ mile of our Plumb Bob Pole project at the Larch Corrections facility. There is no contamination site within the proposed timber sale area. If environmental contamination is discovered within the area of the proposed timber sale the Department of Ecology's Southwest Region Office will be contacted.
